

# ProVia Brake Pads

## Why ProVia?

Until now, your choice of parts was often limited to either premium original parts or low quality substitutes. In response to this, WABCO developed our ProVia line of all-makes parts, which satisfies the need for affordable replacement parts that don't compromise on quality or safety.

WABCO is committed to helping you manage your vehicle's total cost of ownership. With ProVia, you now have access to quality aftermarket parts that have the perfect blend of reliability, performance and value.

## About ProVia Brake Pads

ProVia brake pads are the "no compromise on safety" choice when premium original equipment pads no longer pay off in the total cost of ownership. This highly reliable portfolio covers a number of popular applications in the market today, including air disc brakes from Bendix, Meritor and Knorr-Bremse. The pads also have key industry certifications to further build your confidence in their performance and durability.

## Features and Benefits

- ✓ Designed, engineered and tested by Aftermarket specialists
- ✓ Includes greencoat to assist with bedding, improving braking performance
- ✓ FMVSS 121, R90, Better Brake Rated (BBR), and AMECA certified
- ✓ Comes with all of the necessary hardware to ensure a safe, complete installation

ProVia Part Number	OE Manufacturer	Model	FMSI	OE Part Number
3409010702	Knorr-Bremse	SN7/SB7	D1203	K094436K50 K046771K50
3409020032	Meritor	Meritor Elsa 2	D1310	MMD1310AF
3409020012	Meritor	Meritor D-Lisa	D1312	MMD1312AF
3409010732	Bendix	Bendix ADB22X	D1369	K070796
3409020022	Meritor	Meritor Elsa 1	D1407	MMD1407AF

## Competitive Comparison Testing\*

In competitive testing, ProVia brake pads produced the lowest amount of pad and rotor wear when compared to both an OE and competitive aftermarket pad. In fact, they produced significantly less pad wear than the aftermarket alternative, and significantly less rotor wear than the OE pad. These wear characteristics help protect your air disc brake investment by minimizing damage to expensive components.

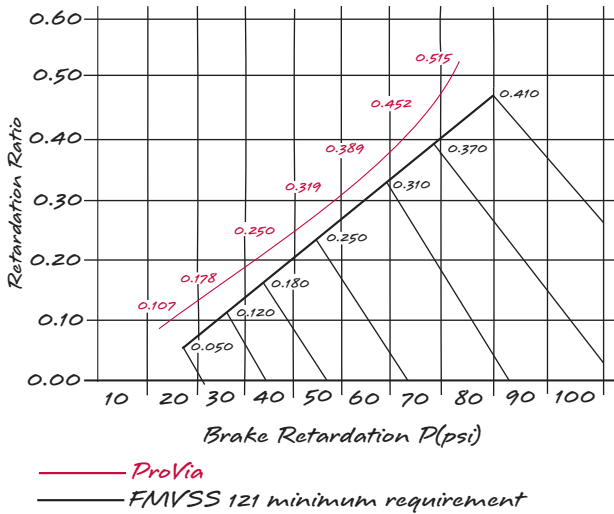

\*Per laboratory testing completed at external third party in June and July 2018.
